Brad Hetherington is the Managing Director of Loancom Australia Pty Ltd, a highly successful and awarded Mortgage Broking Company that focuses on outstanding customer service, exceptional professionalism and a collaborative and supportive team environment.

Brad's personal involvement, with over fourteen years in mortgage broking and twelve years in real estate, means that Loancom brokers are supported by expert knowledge and wisdom that comes from close to three decades in these industries. And practically, Brad structures the business in a way that encompasses, as part of the team, personal assistants who provide administrative assistance. This allows brokers to thoughtfully assist their client while efficiently following every loan application from beginning to end.

With this personal commitment to training and mentoring, Brad has successfully lead Loancom from strength to strength. Regular training sessions, team programs, proactive support of clients, and an excellent rapport with banks has ensured Brad is highly respected as not only a broker but also a leader. This high standard of service was recognised with PLAN's Sales Excellence Award 2014 Business of the Year. The award was a result of the team approach to service provision that is cultivated within the company.

As a Certified MFAA Mentor, Brad provides the support, direction and encouragement new brokers require to allow them to flourish in this dynamic industry. The personal guidance, as well as the team backing affords those ready to forge a new career everything they need to truly succeed.
