I have been in the mortgage broking industry for more than 10 years as a Principal / Business Owner and an Australian Credit Licensee holder. Over the years, I have had the opportunity to assist and to provide my customers with sound based financial solutions – be it simple purchase decision to complex circumstances that involves life changing events- to meet their needs and objectives. Because of our caring nature, more than 90% of my business is through repeats and referrals from satisfied customers.

As a Licensed Mortgage Broker, we are required to comply with the rigid education and training processes to ensure our customer get the appropriate information and advice to make a judgmental decision.

I am very passionate about this business and is happy to share my knowledge, expertise, skill and experiences with potential new talents who are serious, committed, keen learner and who wants to achieve their career dreams to be part of a \$100 billion industry.

As a MFAA Certified Coach, I am qualified and resourcefully equipped with a structured learning process to guide you through this mortgage broking journey with a view to succeed. If you are keen to know more, please do not hesitate to discuss with me.
