Irene feels that perhaps it is now time to explore the possibility of sharing her time, knowledge and experience as a MFAA qualified mentor with people who are keen to enter the finance broking industry. She believes that it is very important that new entrants need to commit themselves to completing a structured 2-year MFAA Mentoring Programme as the programme is designed to better equip them on this journey and help them build their business if they are highly self-motivated to do so.

She ventured out in 2004 to set up her own finance broking business after working as a personal banking for a large foreign owned retail bank for 7 years. She has altogether 20 years of working experience in business development and client relationship management in retail, commercial and merchant banking both in Malaysia and Australia. She shares that even though finance broking is a rather challenging career, it has given her much personal satisfaction especially when her clients recognise and acknowledge her integrity and the high level of effort and professionalism she puts in servicing them.

*Irene's qualifications include:-*
