for the Professional Mortgage Broker

Lynne has worked in the finance sector for over 25 years. She started in retail banking, then into various lending roles and the broker sector. Lynne has been a Lending Officer, Branch Manager, Commercial Lender, Senior Credit Analyst, PAYG Broker and then Business Development Manager for a major mortgage aggregator for over 4 years training and coaching mortgage brokers from Brisbane to Cairns.

Lynne gave up her paid employment to take on the challenge of being self employed because she wanted to practice what she preached and develop her personal business skills. Lynne has a real passion for the Broking Industry and is a firm believer that a professional broker can make a difference in the lives of their clients. Being a proficient and professional broker takes commitment, good training, empathy, people skills and hard work.

Lynne holds an Australian Credit Licence for Precision Loans and has built her business on the strength of having good people, being passionate to help others and ensuring clients get the finance they need approved, structured correctly and with an aim of keeping clients for life. Lynne became a MFAA Accredited Mentor TM because after working with over 100 brokers she could see the need to assistance in the early days of any brokers career. Having the right business support, knowledge foundation and structure can be difference to whether they struggle or succeed.

Having the right mentor is an essential key to a successful business.

- Q:** Is Precision Mentoring for you?
- Q:** Do you strive to be a Professional Mortgage Broker?
- Q:** Are you willing to learn and develop new skills in a systemic, structured way?
- Q:** Are you prepared to invest in your career to ensure your success?

If this is you, Lynne would love to have a chat. Lynne is committed to working with brokers who have the mindset to succeed.
