"Give someone a fish, you feed them for a day. Teach them how to fish, you feed them for life."

Patrick is one of the most experienced brokers in the industry having started his own business in 1988 when mortgage broking was almost unheard of.

Over the years he has trained and built a team of successful brokers. Patrick and his team have been ranked in the TOP 25 Brokerages in Australia in

2009 and 2011 (The Adviser Magazine).

More recently (2012), they were ranked 4th in MPA Magazine's Top Franchise Brokerages in Australia.

Patrick's dedication and passion for the industry is reflected in the high calibre of brokers that have emerged from his mentorship over the past 20 years. His experience spans from an in-depth knowledge of loan assessment to the marketing of mortgage broking services to a wide range of business professionals and clients alike.

Patrick is now dedicated to sharing the secrets of his success with a badly needed pool of new brokers. Understanding the demand placed on new brokers, he is available 6 days a week to answer their queries.

The Citiwide Training Academy is committed to training you to the highest standard, irrespective of your Aggregator alliance.

If it is your goal to learn and build yourself a solid mortgage broking business, then you owe it to yourself to have a chat (and a coffee) with Patrick.
