**About**

After completing my Commerce Degree, I began a career in the Funds Management Industry with Heine in Melbourne. I was moved to Sydney to start their Mortgage Division in 1998 where I continued to work with them until 2002.

From there, I started my own Finance Broking business that was successfully run in Sydney CBD for 5 years. Due to its success, I was approached by Anthony Bell at Bell Partners Accountants to Head up their Finance Broking Team. This was a successful relationship that lasted 6 years.

In 2013, it was time for change, and the launch of Glynn Finance. A brokerage firm that focuses on quality service and outcomes for individual requirements. This has and continues to operate successfully in Sydney's Blich Street. I look forward to mentoring any individuals with a passion for the Industry. With 20 years' experience it will be a pleasure to share some knowledge.
