Infinity Lending runs residential and non-residential mentee programs that are designed to provide participants with holistic commercial exposure. Located alongside wealth management and tax and accounting specialists, mentees will be provided the opportunity to leverage the knowledge of subject matter experts across several disciplines, not simply credit advisory. This will ensure that mentees who are new to market develop a thorough understanding of the various aspects of the financial services sector, which leads to better advice.

Mentees will be professionally challenged and held to the same account as their peers across each business unit in the practice. This is to ensure that mentees grow personally and professionally.

Infinity Lending refuses to run a financially unsustainable relationship with its mentees. We are focused on ensuring that we produce quality entrants to the profession, for the betterment of the entire industry. We are leaders.

Vincent was a former Tax Consultant with PwC Australia and is currently a Taxation and Regulatory Compliance Advisor with Infinity Financial in addition to being the responsible Director of Infinity Lending. Outside the world of business, Vincent enjoys elite sport and serves on the board of a national sporting not-for profit organisation.

The Infinity Financial group comprises a Chartered Accounting, Audit & Tax firm, a Wealth Management practice and a Credit Advisory firm. We boast a friendly work environment, modern office and a client focused team.
